## **VMCCA Membership Dues Announcement**

**Annual dues were due on January 1, 2024. Our By-Laws consider memberships that aren't renewed by**

**February 1 to be suspended. If you have not yet paid dues for 2024, please send your \$48 to National Secretary Mike Welsh as soon as possible. Don't miss out on a tour or an issue of the Bulb Horn because your membership expired! (Re)join us and have fun driving old cars in the New Year!**

## **VMCCA Membership Meeting Announcement**

**VMCCA members can participate in our Annual Membership and 1st Quarter meetings on board the cruise ship via ZOOM. Please contact Mike Welsh to receive a ZOOM invitation link.**

**[vsecretary@vmcca.org](mailto:vsecretary@vmcca.org)**

**While zoom capability is advertised as available at sea, unfortunately weather conditions or other factors not under our control, may prevent this from being stable or available.**

## **Orphan Tour Has More Room**

**ALL Cars are Welcome!**

Y'all come to North Texas. A great event is planned for April 8-12, 2024 but we need your participation. We still have room. **If your vintage car is not ready, bring your modern car. All are welcome.** You will have a great time in Cowtown. You can go crazy in Mineral Wells and cruise around Decatur and Wise County. If you don't come you will miss a lot of new sites.

In addition to the 4 days of touring there are a few activities available on Monday for early arrivals. If you want a scenic drive in the county there is an old fashion county store 30 minutes out. Another event is the eclipse on Monday. Decatur is on the outside of the full eclipse. You can watch the partial eclipse from the parking lot 12:30 to 1:30 pm. Also on Monday afternoon the

plan is to attend a local private car collection 2-5 PM. Another option in Decatur is NRS a large Ranch & Western store which includes a Rodeo champion museum and a free golf cart tour of their working ranch.

Don't miss out on the fun. Sign up today. Click on the link [Registration Form](#)

## *VMCCA 2024 and 2025 Calendar of Events*

## 42<sup>nd</sup> Chrome Glidden Tour

### Northwest Arkansas – The Natural State

#### April 28 – May 3, 2024

The Vintage Motor Car Club of America has not held a National tour in the state of Arkansas since 1963. While change has happened everywhere across America, Arkansas's natural beauty, small towns, and scenic country roads are abundant and uncrowded. You are invited to join your friends and meet new friends on a tour where you will always be close to something special.

**Clarksville** has been chosen as our host city, Holiday Inn and Suites, our host hotel. Daily tours will take us into the Northwest section of the state. This area of Arkansas has scenic routes in every direction. We limited our planning to a few routes within reasonable daily tour distances. Taking distance into consideration, it is fair to say that this is truly a driving tour. Most routes are loops, so we won't travel or back track on roads we have already travelled. There are planned destinations with many enjoyable views and stops along the way.

**FORT SMITH – VANBUREN** - Interstate 40 is designated as a scenic route. The drive is along parallel backroads that are more scenic and less crowded with tourists. Venues include the U. S. Marshall's Museum Immersive Exhibit and Fort Smith Historical Site.

**MT. MAGAZINE SCENIC BYWAY AND STATE PARK** – Spectacular views of Mt. Magazine in the distance and panoramic vistas of the surrounding hills and valleys. A visit to Wiederkehr Winery and Wine Cellar ends the drive.

**HARRISON** - The route to Harrison goes through the Ozark National Forest and the Boston and Ozark Mountains on a designated scenic route. It is a long drive with many scenic stop opportunities and quaint towns. The return route to Clarksville goes further into the National Forests on less traveled roads

**PIG TRAIL HIGHWAY – FAYETTEVILLE** - We'll travel a scenic route through the western side of the Boston and Ozark Mountains to Fayetteville. The venues include Botanical Gardens of the Ozarks, Drake Airfield and Prairie Grove Battlefield.

**PETIT JEAN STATE PARK** - A shorter drive, this route takes us along the scenic Dardanelle Lake (part of the Arkansas River Navigation system) to the State Park and the Museum of Automobiles.

Most days will include a light lunch. Opening and Closing Banquets will be held at a banquet facility in Clarksville.

*Join us for a week of history, beauty and friendly gathering in*

#### THE NATURAL STATE – ARKANSAS

Tour Hosts and Directors

Raymond and Sammie Sue Harrill 501-223-3158

Co-Hosts and Registrars

Ray and Carol Maxfield 970-667-7182

**Look HERE for printable registration form**

The Old Spanish Trail Part II  
May 12 through May 18, 2024  
Grand Junction, Colorado to  
St. George, Utah.

This tour will be limited to twenty five (25) vehicles and the registration form will be on the VMCCA website later or by contacting the director - Steve Fitzgerald by email at: [studebakersteve@bresnan.net](mailto:studebakersteve@bresnan.net) or calling (970) 209 7814 with your questions.

We will leave from Grand Junction where Part I ended. By a vote of the participants in Part I, we shall travel over the same route taken in 1776 by padres Francisco Dominguez and Silvestre Velez de Escalante. We shall go over the beautiful Douglas pass and then through Canyon Pintado with its many ancient petroglyphs and pictographs. We will then stop for a catered lunch at the Bud Striegel car collection museum in Rangely on our way to Dinosaur National Monument before stopping for the night in Vernal, Utah. We then proceed on through Utah on back roads and near Utah Lake where the fathers finally found the bearded Spaniards as part of their mission. With many hardships but with the help of Ute natives, they continued south where weather and a lack of supplies caused them to give up their quest to get to the new mission at Monterrey among the Californios. We will travel through Parowan Gap with its hundreds of historical petroglyphs from several generations. We will also see dinosaur tracks before we arrive in Cedar City and then on to St. George by way of Kolob Canyon, a part of Zion National Park.

There will be many amazing sites and sights as well as some great lunch stops along the way. As I drove this route in July, I saw many pronghorns, deer and wild horses - mustangs of the non Ford variety. We end this segment in St. George with its many options of things to see and do before and after our closing banquet. For those who left trailers in Grand Junction, there will be an escorted trip back to Grand Junction with our trouble truck and trailer taking a different beautiful route on one of the eight Old Spanish Trails.

Part III will go from St. George to Santa Fe November 17 - 23, 2024 following the padres' route. There will be a special Part IV tour from Cedar City, Utah to Monterrey, California from May 4 -10 in 2025. It will follow back roads that I had not been on since my days on a Vespa in the sixties. It will cross Death Valley at a better time of year than July 19 when it hit 131 degrees after I crossed in the morning. The fathers had no way to determine longitude and the natives told them they could get to the big water in a week. That would not have happened. I was asked "What if?" so....here it is. To Monterrey and back with no freeways.

### The GM Firebird II Show Car Made Automotive History

By Robert Tate, Automotive Historian and Researcher

Images courtesy of GM Media Archives

Published 6.1.2022

1956 Firebird II show car brochure (GM Media Archives)

During the 1950s, General Motors' Firebird II show car became a special vehicle in American history. In the years since, many people, including myself, have enjoyed its great styling.

I remember seeing this great model as part of the General Motors Heritage Center collection when I worked for GM Design many years ago. It was one of the first gas turbine show cars built and tested in the United States under the direction of Harley Earl (November 22, 1892 - April 10, 1969). GM called the show car a "laboratory on wheels."

The Firebird II was designed for the future. It offered the driver and passengers agitable pedals, beverage coolers, ventilated seats and a great two-way communication system. With its array of new

innovative ideas, many automotive historians called the Firebird II science fiction on wheels.

## RUMBLESEAT CHATTER

Official newsletter of the...

FREDERICKSBURG VINTAGE CAR CLUB

JANUARY 2024

### FVCC Christmas Party Brings Glad Tidings And Lots of Bling!

Here's a story that probably doesn't need any words at all – the pictures are more than enough to demonstrate the endless amounts of Christmas cheer found in the faces of the 80 or so Fredericksburg Vintage Car Club (FVCC) members in attendance at the Y.O. Ranch Hotel on Sunday, December 10th!

The social hour was well attended and the buffet dinner went down very well, along with the cheese and fruit appetizers members enjoyed before it was time for the two main courses – turkey & dressing and baked ham!

As the clock ticked 7 pm, President, Pete Delforge, rose to begin the 2023 Year-End Award Ceremony.

First up was special recognition for two members that have been the heart and soul of the club's communication efforts for years – Joel Keefer, past *Rumbleseat Chatter* Newsletter Editor, and Margaret Scott, current *Rumbleseat Chatter* Newsletter Editor. Pete reminded all in attendance of the outstanding work Joel put in over the years to build the newsletter, the excellent job Margaret has done maintaining the bar at a high level since taking over this year, and praising both for working together to make the transition from one to the other as seamless as possible! Congratulations to both!

## What is your opinion

There hasn't been a "Barn Find" type article or video included in quite some time. Frankly, there are too many posted these days. This video caught my eye mostly because of the title, then the

image behind the title. It caught my eye because it looks like a pile of junk.

After viewing the video there are several conclusions that can be made. One conclusion is that all of this is a pile of junk. Other commentors about the video shared several points of view.

The introduction above the video, I believe, was written by the "Finder" and photographer. His conclusion is that these cars are "inside and safe for now."

21,363 views Jan 22, 2024

In this first storage building, the owner has tons of parts neatly organized by make and model for the restoration of other vehicles. Much of this came out of R&R Salvage, and cars that they parted through the decades. Some were barn finds, others rescued from junkyards or farms. But thankfully they are inside and safe for now!

If you watched only 5 minutes of the video, you formed some opinion about this hoard. There are over 100 comments about the video in the short time it has been posted. One that closely matches my thoughts is linked below. Take a look at the link and then come back and vote agree or disagree.

[View Comment HERE](#)

Do you agree or disagree with the linked comment?

[Yes, I agree](#)

## All Aluminum V8

When you say DOHC all-aluminum flat plane V8 from Ford, you think about the Voodoo engine.

The GAA engine was all of those things, and was produced 75 years before the Voodoo ever hit the production line.
