## **2023 Membership Meeting and Awards Banquet**

This the view looking west from the 18th floor of the Peppermill Hotel in Reno, NV. Our Membership Meeting's opening and closing banquets were held in this room. There are a couple photographs of the banquet room below. The blue hue comes from the blue tint on the windows. The city of Reno is in the background with a small part of the snow covered mountains to the left. The overall 180 degree view from here is spectacular.

## Announcements

**The 2024 VMCCA Annual Meeting**

## **The 2024 VMCCA Annual Meeting February 8-12, 2024**

The 2024 VMCCA Annual Meeting will be held aboard the Radiance of the Seas as our members enjoy a 3-day, 4-night cruise to Cozumel Mexico.

Cruise departure date is Feb 8, 2024 leaving from the Port of Tampa returning to Tampa on Feb. 12th

Meetings will be held on sailing days.

Balcony	\$580.19 pp double occupancy
Window	\$459.19 pp double occupancy
Inside	\$412.29 pp double occupancy

The above noted cabin rates can only be held for a period of 30 days ending on March 22, 2023. Cabins booked after the expiration date will be charged the current prevailing rate.

The single rate is the same as double rate, however the tax and fees are reduced.

Rates are based upon couples. For this cruise they have a promo which will allow for a 3<sup>rd</sup> and/or 4<sup>th</sup> child age 12 and under for free.

You will be required to make a \$200 deposit which is fully refundable up to 90 days prior to sailing which is also when payment in full must be made. The above prices include all taxes and fees and were quoted based upon a minimum purchase of 8 cabins. The \$200 deposit and final payment for the cruise will be made directly to the Cruise Line. Membership Meeting registration will be handled separately.

Onboard purchases are covered two ways. A credit card will be put on file with guest services when you board the ship. Purchases may be made on the ship against that card. OR....an account can be opened (we believe \$300 minimum cash payment) and purchases will be deducted from that account which may be replenished if necessary.

Boarding will be held at the Port of Tampa beginning at 10:30 am until 2:30 pm.

You will be required to have in your possession either a passport or an original birth certificate or proof of citizenship. If you need to return to the USA in advance of the ship, you will need a passport.

Plans are underway to provide meeting rooms which we are informed have Wi-Fi, and it is hoped we can do a Zoom using our own equipment. Both meetings will be held on the days we are sailing to and from Cozumel.

Plan are also underway for a dinner/banquet/awards ceremony.

Wi-Fi is available in your cabin at a daily rate of \$20. (ask when you call)

Those who may be flying to Tampa can get a shuttle from the Airport to the ship for a fee. If you are flying early and staying in a hotel near the airport you may wish to check with them about providing their shuttle to take you to the ship.

Parking is available at the Port of Tampa also for a fee.

**HOW DO I GET STARTED?**

Any VMCCA member who plans to attend this event will need to send an email to [dgcopley46@yahoo.com](mailto:dgcopley46@yahoo.com) . Your email will be acknowledged and your name will be placed on the contact list and by return email receive the code and cruise line contact information which is required for the above noted cabin rates. Additional information will be included which we encourage you to read.

**THESE RATES ONLY APPLY UNTIL 3/22/2023. DO NOT WAIT UNTIL 3/21/23 TO CONTACT US. AFTER THAT DATE YOUR PER PERSON RATE WILL BE DETERMINED BY THE BOOKING AGENT AND IS NO LONGER GUARANTEED**

**COME JOIN THE FUN!**

## How Detroit's Big Three cashed in on coachbuilders

Ebay

Jim Koscs  
Hagerty News  
16 Feb 2023

Car enthusiasts are accustomed to aspirational names on vehicles: "Le Mans" on workaday Pontiacs; "Cougar" on mild-not-wild Mercury station

wagons, and “Falcon” on a Ford economy car that could not fly—these are but a few examples.

Cashing in on a brand name is standard practice in the auto industry. For many years after WWII, two Detroit brands repurposed names of renowned coachbuilders to give high-line models an extra dose of dash. In some cases it was marketing sleight of hand, suggesting coachbuilt construction that was more homage than anything else.

Rare today, “coachbuilding” was a not-uncommon practice among luxury makes before WWII. The automaker would provide a rolling chassis with running gear to a design and body specialist house, giving elite clients a dose of exclusivity and class over standard-issue models. As Hagerty editor-at-large Aaron Robinson put it: “Coachbuilders delivered a few handmade bolides produced by irreplaceable craftsmen using ancient tools and techniques, while mass production harnessed unskilled labor and mechanized automation to deliver millions of identical vehicles at an affordable price.”

# The Old Spanish Trail - Part 1

## June 4 through June 10, 2023

### Santa Fe NM to Grand Junction, CO

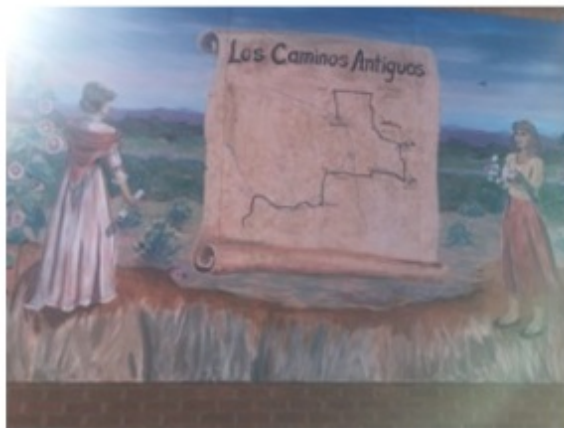

The Old Spanish Trail had several variations. We shall follow the North Branch of the Northern Route as experienced by Fathers Dominguez and Escalante in 1776. The eight trails were used to connect the Old Town of Santa Fe in New Spain to the missions in California. The trail chosen was dependent upon weather, water and other conditions at the time. The western journey took woolen goods made in and around Santa Fe and Taos to exchange for horses and mules in California. There was also trade with native Americans along the way. The journey took about three months going west and about half that coming back. The fathers created the north branch follow existing Native American trails. None of the trails ever developed into wagon roads during the time the land was still part of New Spain or later Mexico. This trade route was responsible for the development of the Santa Fe Trail bringing goods for the east after Mexico became independent and Spanish restrictions ended.

Our tour will take us into Taos where the Pueblo was occupied for over many centuries is still occupied. We will then cross the Rio Grande several times as we journey North through several Tribal territories and Colorado's oldest town of San Luis. We will see Ft. Garland once commanded by Kit Carson near the college town of Alamosa. We then travel by the easy route over Cochetopa Pass to Gunnison with its extensive Pioneer Museum. Then it is on to Montrose and its Museum of the West and the Ute Indian Museum via the black Canyon National Park. On our final leg of this Part One of the Old Spanish Trail, we shall stop at the re-created Ft. Uncompahgre originally established in 1825. We will close out part one with a tour over the Colorado National Monument before our closing banquet in Grand Junction.

The day after our closing, many of us will travel back to Santa Fe to retrieve our trailers and tow vehicles. We will go through Ouray, referred to as the Switzerland of America, and then over Red Mountain Pass to Silverton and on through Durango. Our trouble truck will cover the journey.

We will travel through some beautiful country as well as much of the poverty stricken areas typical of the southwest. We will go from high desert to high mountains and back to high desert.

JANUARY / FEBRUARY 2023

## Message from the President

### 2023: Time To Rise And Shine!

Happy New Year & welcome old car lovers across the Texas Hill Country to the Fredericksburg Vintage Car Club (FVCC) in 2023! I hope you're as ready as I am to enjoy club friendships and start participating in another great touring season. But hey -- after last year's fun-filled, celebratory 50<sup>th</sup> Anniversary Year, you may be wondering: how can FVCC possibly top 2022? Well, just you wait and see...

I predict 2023 will be every bit as fun, and maybe even more memorable, than last year! Why?, you might ask. It's simple: in 2023, FVCC steps out onto the national vintage car club stage -- the BIG Stage, if you will -- by hosting our own Vintage Motor Car Club of America (VMCCA) Chrome Glidden Tour. And that means old car lovers from all over the United States will drive their vintage rides down to tiny Fredericksburg, Texas, to experience our unique brand of warm, Texas-friendly hospitality and see first-hand why FVCC is such a strong, vibrant chapter in the VMCCA Texoma Region!

In short, fellow FVCC members, 2023 is our time to RISE to the occasion and SHINE as brightly as the Texas sun!! I know, I know, we've been talking about and planning this event for what seems like forever... and trust me when I say I'm just as tired of the 'labor pains' as you are and ready to see the 'baby'... but we're really getting close now, and I, for one, am ready to stop talking and start doing my share to make this BIG event a huge success!

As a result, there'll be opportunities galore for EVERYONE to get involved and volunteer in 2023 -- from the national Chrome Glidden Tour to our monthly club tours, from our annual picnic to our popular Christmas Party, make plans NOW to offer some of your time & talents to FVCC along the way!

This year is about being BIG in everything we do -- and I know all of you will step up to help FVCC put our proverbial best feet forward, whether they be in tennis shoes, sandals, or cowboy boots!!! Remember...

Think BIG, Act BIG ...and Happy Motoring in 2023!!!

Pete Delforge

Your FVCC President

## Auto History Trivia

What is the origin of the term "pickup truck"

Answer on Page 12

## Upcoming Events

**February 7th: Club Meeting,**  
7:00 pm, Golden Hub Community Center

**February tour: Western Art Museum**

**March tour: tentative tour to learn how Babbitt bearings are poured**

**April 16 -20: Chrome Glidden Tour, Fredericksburg, Texas**

## Looking Ahead

### February Birthdays

3 Terry Ilsing  
17 Sergio Fernandez  
19 Randy Pullen  
21 Henry Blechl  
21 Ray Holley  
25 John Schluter  
28 Edward Jackson  
29 Greg Rising

### February Anniversaries

10 Lloyd and Mary Ann Hill  
14 Jim and Debbie Atkerson  
16 Rick and Brenda Weirich  
20 Dale and Annie Harrison  
21 Byron and Adonna Dugat  
28 James and Sharon Koch

We ask that those celebrating Birthdays or Anniversaries bring some refreshments to share at the next club meeting to be held at the Golden Hub.

A half century ago, Bendix tested  
autonomous EVs right where automakers  
test them today

For much of the 21st century, it seems that the automotive world has focused its attention on two concepts: electrification and autonomous driving. The road to driverless electric cars, however, has recently hit a few potholes. A bit of the bloom has faded from the self-driving rose with the recent shuttering of Argo AI, the autonomous driving startup backed by \$2.6 billion of Ford and VW's money, and Akio Toyoda, head of Toyota, recently claimed that he's not the only automotive executive who is skeptical about embracing an all-electric future.

Whether or not internal combustion engines and steering wheels will be supplanted by electric motors and artificial intelligence is still an open question. There are apologists and critics making their points on both sides of the issue.

However, the automotive industry, influenced by decisions made in California, Washington, and Brussels, is undoubtedly moving headlong into the electric age, investing billions and billions of dollars, euros, yuan, and yen on battery powered cars and trucks. Originally spurred by Tesla's introduction of its Autopilot feature, and despite setbacks like the closing of Argo AI, the auto industry continues to spend considerable sums on developing some form of self-driving vehicles, perhaps with more modest goals than full autonomy.

# The Steering Column

## Behind the Wheel

HELLO AGAIN MEMBERS:

We had a meeting Jan 19th at the International Buffet. There were no minutes or Treasure report. Jenny estimated the amounts in the bank account to what Jerry had given at the last meeting. Steve Robbins would like to receive a paper newsletter as his e-mail is locked and he is not able to access it. So if you need to reach him please call him.

Under new business: We needed to elect new officers. After some discussion about the limited amount of member and who would like to take over these jobs, the question was do we really need to have officers? Alex looked at the VMCCA by-law and according to them we are under the number of members that are required to have officers. There was some discussion to do like we have in the past and ask what membership we have, to take a month and be responsible for planning a monthly event.

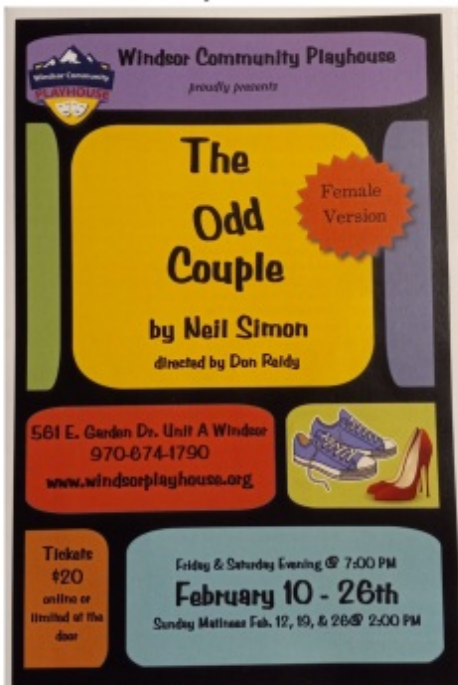

We are hoping that Jerry Wilds will continue to be Treasurer. We are asking all member to fill out the registration form for the club and get back to Jerry as soon as possible. It was decided to not charge for dues again this year, however we do need the COLORADO WEST CHAPTER membership application or renewal completed so we can get a new roster sent to everyone. REMEMBER, you must have paid the NATIONAL DUES FOR 2023. Andrew put the applications in the last newsletter and will also include them in this one as well.

The next get together is schedule for Feb. 18th which will be the Lions Club Carnival Parade. We usually do breakfast at the Golden Corral. Details to follow when we receive them.

Until next time,  
Jenny Thrailkill

Thanks to Lisa and Gib Coalwell for managing the arrangements so fourteen club members could attend the wonderful funny comedy, *The Odd Couple* (female version) at the Windsor Community Playhouse.

It has been several years since the club has visited the playhouse and it was a very enjoyable way to spend a Sunday afternoon.

The actresses performing had great comedic timing and the keen direction made the play flow at an

**New "Right to Repair" legislation introduced in  
the House of Representatives**

Bettmann Archive/Getty Images

House Resolution 906, a new version of the "Right to Repair" Act,

formally known as the “Right to Equitable and Professional Auto Industry Repair (REPAIR) Act,” has been introduced in the U.S. House of Representatives by U.S. Representative Neal Dunn (R-FL), and co-sponsored by Representatives Brendan Boyle (D-PA), Warren Davidson (R-OH), and Marie Gluesenkamp Perez (D-WA).

The Right to Repair Act would ensure that all mechanics and repair shops, and not just new car dealers, have access to data and other information pertaining to vehicles’ onboard computers and other fixable features. Some manufacturers in the past have considered this information to be proprietary.

“When it comes to repairing their automobiles, consumers deserve options,” said Dunn. “The Repair Act would give owners, including the rural communities in my district, secure access to critical data so their chosen service center can replace parts and repair their vehicles.”

VOLUME 15 • NUMBER 1

## Stahl's Auto Museum Scouting Trip

By Mike Parker — Black Swamp Chapter

Gordon Rhoades, Bob Peinert, and Mike Parker of the Black Swamp Chapter drove up to New Baltimore, Michigan, to visit the Stahl's Auto Museum. Second from right is Seamus Hnat, who is Stahl's head mechanic and happens to be a past member of Black Swamp. Seamus took them on a personally guided tour of the facility. It's a fantastic place, well worth the trip, and will make a great stop on the 2023 GLR Tour hosted by the Brighton Chapter (see the registration form on page 6).

## CALENDAR OF EVENTS

### January

Tuesday, January 10th  
GLR Meeting

Sunday, January 15th  
Swap Meet  
Jackson, Michigan

Sunday, January 29th  
Defiance Chapter Meeting

### **The VMCCA Page on Facebook!**

**Facebook has become an extremely popular social networking site, reportedly having more than 5.0 billion users. That is something like 40% of people on the planet! There is no doubt that it is a great tool for keeping in touch with people and organizations in a way that was undreamed of and impossible just a few years ago.**

**Our Facebook page is becoming more and more popular. It really is becoming a forum with many active contributors.**

**So join! Contribute! Make it a forum for all things VMCCA.**
